

SC Connectors

SC - Jumper Cable Assemblies

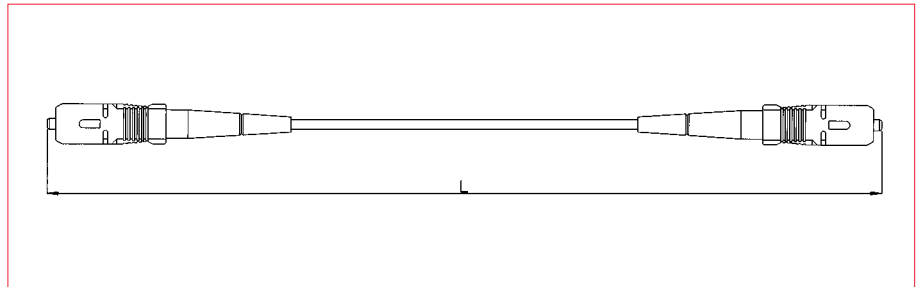

- FCI's cable assemblies are available in several standard lengths as full assemblies or pigtails.
- All cable assemblies are intermateable according to the SC-NTT standard.
- FCI's cable assemblies are factory mounted and tested according to most stringent quality requirements.

Fibres

- Multimode types 50/126 µm and 62.5/126 µm, graded index.
- Monomode types 9/126 µm according CCITT - G 652

Cable

- Single fibre or duplex.
- Coloured outer jacket, Ø 2.4 or 3.0 mm.
- Traction reinforced by the use of aramid fibres.
- Attenuations single mode cable:
0.45 dB/km at 1300 nm
0.25 dB/km at 1550 nm
- Attenuations multimode cable:
3.2 dB/km at 850 nm
1.0 dB/km at 1300 nm

For other cable lengths and mixed connector ends, consult FCI.
All leads can be supplied in PC or APC polishing.
Specific cable requirements and cable harnesses on request.

Termination Tool Kits

FCI's termination tool kit guarantees an optimum connector termination in combination with FCI's polishing procedure. The termination tool kit is built in a modular way and is standard suitable for FCI's SC

product family.
An extension kit is available for termination of FCI's ST product family.
